

FOR IMMEDIATE RELEASE

APOLLO ENTERPRISE SOLUTIONS, LTD. RECEIVES ALLOWANCE FOR ITS SEVENTEENTH UNITED STATES PATENT COVERING ITS TRUEPAY+ PAYMENTS PLATFORM

Los Angeles, California, September 2, 2014 - Apollo Enterprise Solutions, Ltd. ("AES") (AES:BH; OAL:GR), a leading provider of "Big Data" Solutions utilizing Agent Emulation® technologies, announced today that it has received allowance of its patent titled "Dynamic Score Alteration" from the United States Patents & Trademarks Office. AES now has 23 patents issued or to-be-issued worldwide.

"We are delighted to have received another important patent from the United States Patents & Trademarks Office that is a continuation of our U.S. Patent #7,814,005. It enables delinquent credit customers to determine what their credit score increase would be if they selected a debt settlement offer. This empowering technology allows consumers to instantly determine the net result of their action when they make a payment towards a debt," stated Joseph Konowiecki, AES' Chairman & CEO. "We will continue to innovate with new technologies that improve efficiencies for credit issuers while enhancing the customer experience," Konowiecki emphasized.

About AES

AES delivers "Big Data" Solutions utilizing Agent Emulation® technologies, which provide superior economic returns and data analytics for consumer and business credit portfolios. AES' patented TRUE™ System empowers consumers to self-serve on a highly individualized basis according to their personal profile. Consumers are empowered to take positive financial actions to resolve their situations using any device, at any time. AES' patented TRUE™ System helps banks and financial institutions achieve significantly improved operational effectiveness and large increases in profit, while enhancing the customer experience and brand loyalty.
