

FOR IMMEDIATE RELEASE

AES ISSUED ELEVENTH UNITED STATES PATENT FOR DEBT PAYMENT, SETTLEMENT AND COLLECTIONS

Los Angeles, California, May 7, 2014 – Apollo Enterprise Solutions, Ltd. (“AES”) (AES:BH; OAL:GR), a leading provider of “Big Data” Solutions utilizing Agent Emulation™ technologies, announced today that it has been awarded an additional patent by the United States Patents & Trademarks Office. US Patent #8,694,390 titled “System and method for resolving transactions with lump sum payment capabilities.”

“The ability to simply and easily resolve debts by making lump sum payments is an important new capability that will enable even more consumers to self-serve”, said Joseph Konowiecki, Chairman and CEO of AES. He continued, “This new patent issuance continues the development of our TRUE™ line of advanced self-serve debt payment, settlement, and collections products that are enhancing compliance, reducing risk, and improving the consumer experience.”

About AES

AES delivers “Big Data” Solutions utilizing Agent Emulation™ technologies, which provide superior economic returns and data analytics for consumer and business credit portfolios. AES’ patented TRUE™ System empowers consumers to self-serve on a highly individualized basis according to their personal profile. Consumers are empowered to interact on a self-serve basis to resolve situations on any device, at any time. AES’ patented TRUE™ System helps banks and financial institutions achieve significantly improved operational effectiveness and large increases in profit, while enhancing the customer experience and brand loyalty.
