

FOR IMMEDIATE RELEASE

AES RECEIVES ALLOWANCE FOR ITS TWELFTH UNITED STATES PATENT COVERING ITS TRUEPAY+ INTELLIGENT PAYMENTS PLATFORM

Los Angeles, California, May 19, 2014 - Apollo Enterprise Solutions, Ltd. ("AES") (AES:BH; OAL:GR), a leading provider of "Big Data" Solutions utilizing Agent Emulation™ technologies, announced today that its patent application titled "System and method for resolving transactions" has been allowed to be issued by the United States Patents & Trademarks Office.

"Banks and financial institutions are vying for new consumer-friendly payments and collections capabilities that can improve their bottom lines," said Joseph Konowiecki, Chairman and CEO of AES. He continued, "The new patent will enable AES's TruePay+ Intelligent Payments Platform to further enhance and expand the capabilities of legacy payment systems, affordably and with a minimum amount of disruption to current operations."

About AES

AES delivers "Big Data" Solutions utilizing Agent Emulation(tm) technologies, which provide superior economic returns and data analytics for consumer and business credit portfolios. AES' patented TRUE™ System empowers consumers to self-serve on a highly individualized basis according to their personal profile. Consumers are empowered to interact on a self-serve basis to resolve situations on any device, at any time. AES' patented TRUE™ System helps banks and financial institutions achieve significantly improved operational effectiveness and large increases in profit, while enhancing the customer experience and brand loyalty.
