

FOR IMMEDIATE RELEASE

**APOLLO ENTERPRISE SOLUTIONS, LTD. (“AES”) ALLOWED THE 8TH US PATENT FOR ITS AGENT EMULATION TECHNOLOGIES**

Los Angeles, June 18, 2013 – AES, a leading provider of advanced interactive software solutions for banking transactions, has been allowed the 8th US patent for its Agent Emulation™ technologies. Patent Application Serial #11/256406 is for the method of enabling a debtor to settle a debt online by selecting from a set of personalized offers generated by AES’ proprietary rules engine based on the debtor’s profile, payment history, and other credit information.

“We are excited to receive allowance for our 8th US patent on our breakthrough Agent Emulation technologies,” said Joseph Konowiecki, CEO. He continued, “This patent broadens the scope of our technology’s coverage making it applicable to an even wider spectrum of banks and financial institutions.”

**About AES**

AES offers an enterprise-wide Agent Emulation™ System for management of consumer credit portfolios. AES’ patented TRUE™ System achieves operational effectiveness, increase in profit, and enhances consumer experience and brand loyalty. Consumers are empowered to interact on a self-serve basis to resolve situations on any device, at any time. More information about Apollo Enterprise Solutions, Ltd. ("OAL:GR") is available at <http://www.aestru.com>.
