

FOR IMMEDIATE RELEASE

APOLLO ENTERPRISE SOLUTIONS, LTD. (“AES”) ALLOWED NEW PATENT IN SOUTH KOREA

Long Beach, CA, April 4, 2013 – AES, a leading provider of advanced interactive software solutions for banking transactions, announced today the allowance of their South Korea patent application 10-2007-7011489 titled “System and Method for Resolving Transactions”. The technology covered enables customers to choose on a self-serve basis, from a group of banking options generated based on their individual profile.

“This South Korean patent aligns well with our efforts to serve the Asia Pacific banking market,” said Mr. Konowiecki, AES Chairman & CEO. He continued, “South Korea is the 15th largest economy in the world with its 9 top banks having a combined \$1.3 trillion in assets, making it a great opportunity for our technology.”

About AES

AES offers an enterprise wide Agent Emulation™ System for management of consumer credit portfolios. AES’ patented TRUE System achieves operational effectiveness, increase in profit, and materially enhances consumer experience and brand loyalty. Consumers are empowered to interact on a self-serve basis to resolve situations on any device, at any time.
